## **Accounting Principles and Concepts**

Accounting is a system meant for measuring business activities, processing of information into reports and making the findings available to decision-makers. The documents, which communicate these findings about the performance of an organisation in monetary terms, are called financial statements.

## **INTRODUCTION TO ACCOUNTING - Haryana (India)**

These Principles address accounting and financial reporting, not basic accounting systems or the manner in which financial records are maintained and need not be applied to immaterial items. This edition of the Principles supersedes and replaces both the 1990 and earlier editions and the
