Â© 2005 Building Science Corporation â€¢ At the most basic level a building provides shelter - shelter from the elements as well as from other dangers.

Building Science for Architects Introduction

Architectural Structures provides the critical tools and know-how to design and build structures that will withstand wind, earthquakes, and other forces. This major survey of structural design is a useful guide to the fundamentals of establishing the structural concept for a building and dealing with structural issues.

Architectural Structures | Building Design | General

The Master of Architecture (M.Arch.) is the only professional architecture degree offered in Minnesota. Completion of the Bachelor of Science degree allows you to apply to a 2 -year M.Arch. program. Completion of a professional degree is a requirement for becoming a licensed architect in Minnesota.
