Lecture 19: Measuring the Universe: Cosmological Distance Scale and Cosmological Tests. The distance

ladder. Stellar distance indicators and Cepheids. The HST Hubble Constant Key Project. Distance Indicator relations. The age of the universe. Cosmological tests. Tests for the expansion of the universe. Supernova standard candles and the Hubble ...

Ay 1 - The Evolving Universe - Caltech Astronomy

This is an introductory astronomy survey class that covers our understanding of the physical universe and its major constituents, including planetary systems, stars, galaxies, black holes, quasars, larger structures, and the universe as a whole.

The Evolving Universe | Coursera

Mpc), within the visible universe (Mpc), most probably a tiny homogeneous patch of the infinite global structure of space-time, much beyond our observable universe. Cosmology studies the universe as we see it. Due to our inherent inability to experiment with it, its origin and evolution has always been prone to wild speculation.
