Abnormal Psychology: A Scientist-Practitioner Approach portrays the human face of various psychological conditions, helping students to understand that abnormal behavior is complex and subject to many different forces. Authors Deborah Beidel, Cynthia Bulik, and Melinda Stanley – all active researchers, clinicians, and educators – bring abnormal psychology to life via a scientist-practitioner approach that integrates biological data with research from the social and behavioral sciences.

Assignment completion is critical to course success, as students must achieve at least 82.5% to pass the course. Since implementing MyLab IT, course evaluation ratings have increased and remained steady, a testament to the course’s new redesigned structure, assignments, and the instructor’s teaching methods.
