

operations and supply chain pdf

Supply chains and business operations are the backbone for development and growth of organisations and nations. Today's uncertain, turbulent environments expose supply chains and business operations to risks/disruptions that can significantly damage organisations and economies.

International Journal of Supply Chain and Operations

Supply-chain operations reference (SCOR) model is a process reference model developed and endorsed by the Supply Chain Council as the cross-industry, standard diagnostic tool for supply chain management. The SCOR model describes the business activities associated with satisfying a customer's demand, which include plan, source, make, deliver, return and enable.
