

planet word kindle edition pdf

I loved the Japan Lonely Planet book, so thought this would be a safe bet. Big mistake. This book is really poorly edited; several of the listed attractions/sights didn't appear in their corresponding maps, or appeared in the map of a completely different section.

Kindle format warning. The ebook is poorly formatted for Kindle Readers. Missing spaces, random replacement characters, poor layout. The information is intact, but the formatting makes reading this ebook unpleasant.
