

rapidminer data mining use pdf

RapidMiner is a data science software platform developed by the company of the same name that provides an integrated environment for data preparation, machine learning, deep learning, text mining, and predictive analytics. It is used for business and commercial applications as well as for research, education, training, rapid prototyping, and application development and supports all steps of the ...

RapidMiner - Wikipedia

Data mining is the process of discovering patterns in large data sets involving methods at the intersection of machine learning, statistics, and database systems. Data mining is an interdisciplinary subfield of computer science with an overall goal to extract information (with intelligent methods) from a data set and transform the information into a comprehensible structure for further use.

Data mining - Wikipedia

All data science begins with good data. Data mining is a framework for collecting, searching, and filtering raw data in a systematic matter, ensuring you have clean data from the start.

In this paper we analyze extensive operational data from bike-sharing systems in order to derive bike activity patterns. A common issue observed in bike-sharing systems is imbalances in the distribution of bikes.

Understanding Bike-Sharing Systems using Data Mining

Text Importation – The ability to import text is one of the most important features of text analytics software because users need to retrieve text data from different sources. The best data mining software can import data in different formats such as plain text, HTML, PDF, RTF, CSV, MS Access, and MS Excel.
