Windows Server 2003 Weekend Crash Course: Don Jones

If you've received even a day of basic networking training, odds are that you're familiar with the original classful structure of the IPv4 Internet (which still appears on the CCNA, despite having been obsolete for as long as I've been around).The range of all possible IPv4 addresses was originally segmented into five classes, A through E.

IPv4 Exhaustion: What About Class E Addresses

Basic Networking Tutorial - a network is any collection of independent computers that communicate with one another over a shared network medium.A computer network is a collection of two or more connected computers. When these computers are joined in a network, people can share files and peripherals such as modems, printers, tape backup drives, or CD-ROM drives.

Representing 1, 2 and 3 in as many lines as the number represented worked well. [citation needed] The Brahmin Indians simplified 4 by joining its four lines into a cross that looks like the modern plus sign.The Shunga would add a horizontal line on top of the numeral, and the Kshatrapa and Pallava evolved the numeral to a point where the speed of writing was a secondary concern.
