Ghost hunting is the process of investigating locations that are reported to be haunted by ghosts. Typically, a ghost-hunting team will attempt to collect evidence supporting the existence of paranormal activity. Ghost hunters use a variety of electronic devices, including EMF meters, digital thermometers, both handheld and static digital video cameras, including thermographic and night vision ...

This paper extends the concept of therapeutic landscapes by investigating how green and blue spaces affect older adult health and wellbeing. We draw on interview data from participants aged 65-86 years old who described their everyday experiences with green and especially blue spaces across Metro Vancouver, Canada.

Midley History of early Photography:

Market segmentation is the activity of dividing a broad consumer or business market, normally consisting of existing and potential customers, into sub-groups of consumers (known as segments) based on some type of shared characteristics. In dividing or segmenting markets, researchers typically look for common characteristics such as shared needs, common interests, similar lifestyles or even ...
