Report of the United Nations Conference on the Human

Differential responsibility therefore aims to promote substantive equality between developing and developed States within a regime, rather than mere formal equality.

The Principle of Common But Differentiated

The natural environment encompasses all living and non-living things occurring naturally, meaning in this case not artificial. The term is most often applied to the Earth or some parts of Earth. This environment encompasses the interaction of all living species, climate, weather and natural resources that affect human survival and economic activity. The concept of the natural environment can be ...
