The incremental learning derives its name from the incremental nature of the learning process. In incremental learning, all facets of knowledge receive a regular treatment, and there is a regular inflow of new knowledge that builds upon the past knowledge.

SuperMemo: Incremental learning

Environment shapes brain development While some say the only toy a child needs is a cardboard box, numerous research studies show that children who grow up in more stimulating environments do better than those who have fewer opportunities to learn. 1 Brain development is activity dependent so everything a child touches, tastes, sees, hears, and smells impacts the brain's circuitry. 2 The ...
