Use the poly function to obtain a polynomial from its roots: $p = \text{poly}(r)$. The poly function is the inverse of the roots function.. Use the fzero function to find the roots of nonlinear equations. While the roots function works only with polynomials, the fzero function is more broadly applicable to different types of equations.

History. In the 17th- and 18th-century Russian Empire, believing in God's presence in every human being, these people concluded that clergy and formal rituals were unnecessary. They rejected the secular government, the Russian Orthodox priests, icons, and all church ritual, holding that the Bible was the supreme source of divine revelation. They believed in the divinity of Jesus.
